# Carts – Part #1: WHERE'S THE MAGIC ?

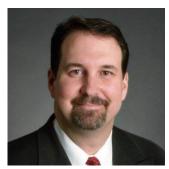

## Meet the Panelists

Lori Welsh – City of Lansing, Environmental Specialist

Dave Norwood – City of Dearborn, Sustainability Coordinator

Ben Williams – Allegan County, Recycling Resource Coordinator

# **City Of Lansing**

City of Lansing Capital Area Recycling & Trash Residential Cart Roll Out

What was the time frame from your municipal group discussions to launch the recycling initiative? And how many options were considered?

- Discussions began in 2008 to phase in program modifications
- Re-branding
- 2010 single stream collection began
  - Created demand for larger collection container
  - Created need for more efficient operation
- EECBG funds used to pilot programs
  - Residential carts
  - Commercial recycling
  - Public Space recycling
- Spring/Summer 2013– Cart financing, contract completion, resident notification, etc.
- Fall 2013 Automated fleet arrived/Cart distribution began

What was the process for your community in selecting a cart size and frequency? Did the decision meet the needs of the residents and would you change anything differently if you had to do it again?

- Researched what other communities had done
- Utilized pilot survey data
- Recognized the need to have a smaller option for smaller households
- Recognized need to limit size options and limit frequency of exchanges
- Unresolved issues:
  - Option for elderly or disabled unable to push cart to curb

What were the pre and post education efforts supplied to the community?

• Newsletters announcing "larger carts are coming"

- 3 separate mailings to inform residents of the changes coming
  - New carts
  - Bi-weekly collection
- Video shown on City TV and CART website

### **Education Continued**

• Press conference/media coverage

• Newly revamped website with calendar/map feature, cart updates, etc.

### • Information packet distributed with carts

- Residential guidelines
- Cart set out tips
- Calendar
- o Map

Recycling collection is

now every other week.

The City of Lansing is now using roll out carts instead of small bins to collect curbside recycling. Effective immediately, please use the new cart only. Please either keep the old green bin for your own use or recycle it by placing inside the new cart. Recycling collection is now every other week.

Routes are set up using a green week or blue week schedule. Please refer to the Recycling Collection Map to determine the collection week for your home.

To make it easy to remember your recycling collection week, save this Recycling Collection Schedule for future reference. 2014 Recycling Collection Schedule

**Residential Guide to Single-Stream Recycling** Newspapers, Magazines, Brochures & Inserts File folders, office paper & gift wrapping paper #1-#2 and #4-#7 Plastic containers Cartons (no Styrofoam) Paperboard boxes cereal, pasta, & tissue Corrugated cardboard & Paper bags NO Greeting ci regular & junk mail Plastic Bags Styrofoam containers Wire hangers Window panes, mirrors, ceramics & Pyrex dishware hane addre Glass bottles & jars (all colors) Organic material and food waste Electronic waste (batteries, cell phones, computers, etc.) Empty and rinse all containers. Everything, including cardboard, must fit inside cart with lid closed. · Paint, pesticides, oil & cleaners Waxed cardboard Please follow these guidelines and set your cart out by 7:00 am. Bulky Rigid Plastic Needles or syringes • #3 Plastics Use your smartphone to scan this QR code and visit us online @ LART Virg Bernero, Mayor www.lansingrecycles.com singmi.gov • Website: www.lansingrecy

Information included with every cart upon delivery

Did you implement or consider a commercial recycling initiative? Why or why not?

- Yes, Why? Demand from local businesses
- Pilot focused on downtown area
  - Free service throughout pilot
  - Pre/post surveys conducted
  - Weekly single stream collection using 96 gal carts.
- Post pilot fee introduced
  - \$47/quarter for 1<sup>st</sup> cart; \$25/quarter each additional cart
- Niche: small businesses 1-20 employees
- Provides a convenient, affordable option

Did you have a multifamily plan for recycling, if so what is you plan?

- Began pilot Spring 2013
  - 40 yard roll out
  - Single stream collection
  - Pilot continues
  - Very successful/popular/few problems
  - Fee will be introduced with new fiscal year
- Long term challenges
  - Trucks and equipment limitations
  - Funding

Do you have an estimate on how many tons of recycling material is collected/processed within your program?

#### • Full year of data not yet available

- Monthly increase between 70-95% compared to avg of last 3 years
- Monthly average: appx 400 tons
- 2013: appx 3900 tons
  - Carts distribution, Sept-Oct
  - Includes, residential, commercial, multi-family

What is the "dunnage" trash percentages of your collected materials? Do you have a plan to decrease this amount? If so how?

- Maximum allowable contamination rate: 6% by contract
- No knowledge of City of Lansing's actual percentages.
- No known serious contamination issues
- Strategy to reduce: residential tags, targeted letters, removal of carts for persistent problems
- CART removes large/obvious contaminants

What is the current participation rate? And do you have a plan to increase this participation level?

- Winter 2013 route audit performed
  - Limited in scope
  - Over holiday season
  - Carts and bi-weekly schedule new to residents
  - More comprehensive audit needed
  - Plan to increase rate includes continued education (newsletters, social media, etc)

How are the commodity markets effecting your program?

Commodity revenue is not relied on to operate program.
Increased attention is paid to cost of recycling

### History of Recycling in Dearborn

City of Dearborn

# 1. Do a pilot

City of Dearborn

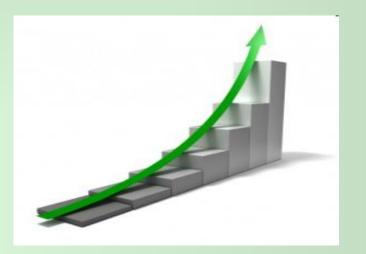

# 2. Observe the pilot

City of Dearborn

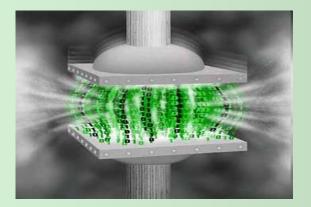

# 3. Take pilot to scale

City of Dearborn

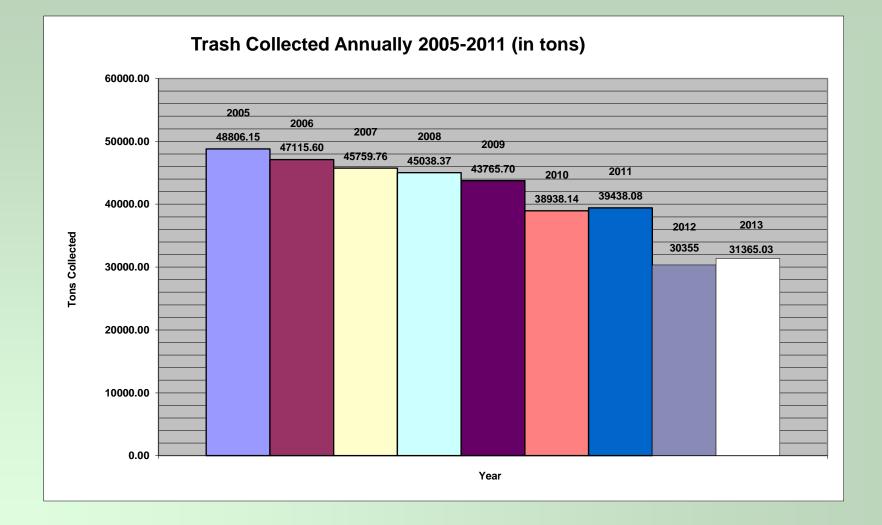

# 4. You should probably check your data

City of Dearborn

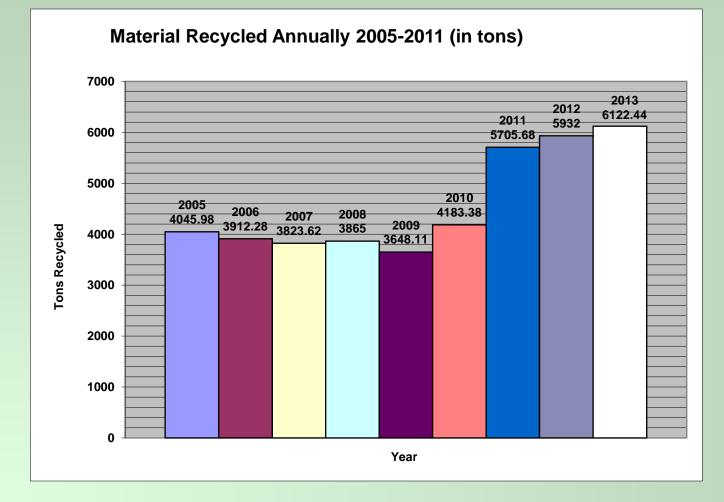

### **Volumes of Trash Collected**

City of Dearborn

# **Volumes of Recycled Material**

City of Dearborn

# **Recycling Data**

- Prior to the new program, the average Dearborn household recycled 236.75 lbs of material annually.
- In the first full year of the program (2011) recycled material increased by 2057.53 tons from 2009.
- Today, the average Dearborn household recycles 376.77 lbs of material annually

## **Need More Data**

- Improper set outs
- Construction Debris
- Excessive set outs
- "Reloads" (extra lifts of cart)

# ALLEGAN COUNTY RESOURCE RECOVERY

Presented By: Recycling Coordinator - Ben Williams

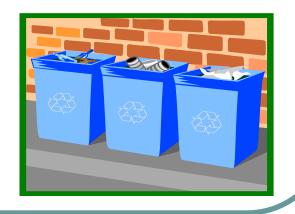

### **Resource Recovery**

What does this program cover?

- Curbside Recycling
- Specialty Recycling (Tires, Appliance)
- Household Hazardous Waste Collection
- Unwanted Medication Collections
- Sharps Recovery Program
- Electronic Collections

### Funding for Resource Recovery.

### Allegan County.

- Allegan County uses PA 138 of 1989 amended by PA 69 or 2005. This act allows counties to work with some or all of the local units to establish a Resource Recovery Program. Through an Interlocal Agreement, the county can collect up to \$25 per year from households by approval of the local board. These agreements are for 5 years.
- This money is held at the County Treasurer's Office in accounts specific for each township. Example 1,000 homes for Township A would generate \$25,000 into their specific account.

### Funding for Resource Recovery.

Allegan County.

- Through the Interlocal Agreement, the County receives 15% of this revenue to administer the recycling program.
- Example: \$25,000 Total; Planning and Education Adjustment \$3,750 = \$21,250 for operating revenue.

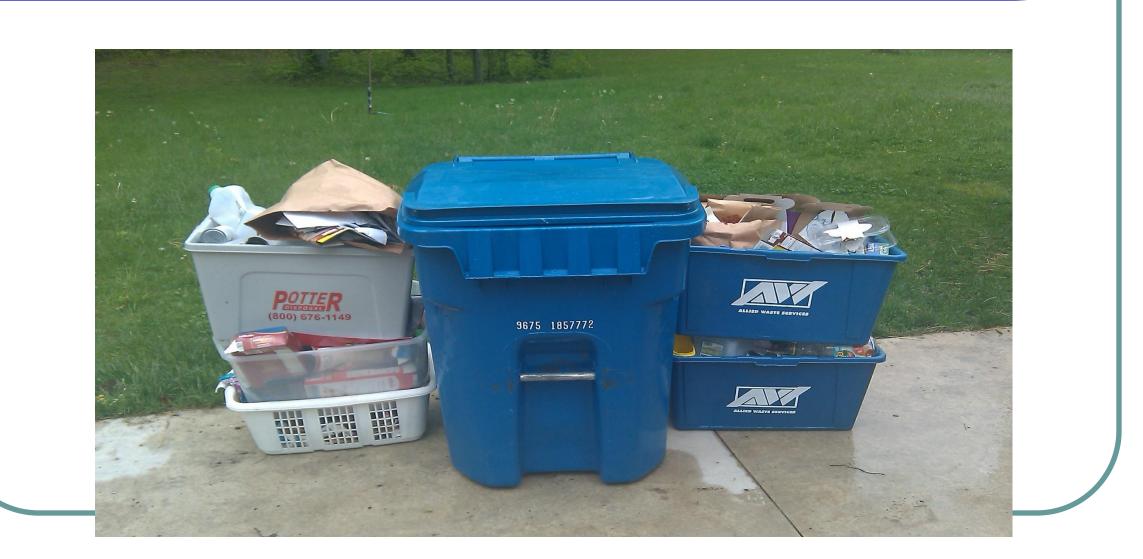

### Open Bin Style Recycling.

- What can be recycled?
  - Cardboard
  - Paper
  - Plastics #1-7
  - Glass beverage containers
  - Steel cans. (Can goods)
  - #2 & #4 Plastic Bags

#### Three weeks of recycling Open Bin Single Stream.

# New Recycling Cart Picture

#### Why Recycle?
