

THE GREAT MICHIGAN COMPOST TOUR

Come learn about how fish waste is being used to build organic matter in our soils! The **Grand Traverse Band Gitigaan** Agriculture & Food Sovereignty Department has been growing their fish composting operations since 2022 and is averaging **6,500 pounds of fish waste composted a week this summer**. This organic waste is used to make high quality organic soil amendments to put back into the soil and food systems.

Date:
Wednesday,
September 18

Time:
10:00 AM – 11:00 AM

Address:
2700 Strong Heart
Way Rd.
Suttons Bay, MI
49682
